

Press Release – Precious Stone

Precious Stone is a rock band with history, attitude, and a distinctive sound.

In the mid-1980s, a young, ambitious band was formed in the Stubai Valley/Tyrol, which quickly caused a sensation beyond the borders of Tyrol: **Precious Stone**. Countless regional and national performances as well as successful participation in a wide variety of talent competitions quickly made the formation a permanent fixture in the local rock scene. With authenticity, high musical standards, and a powerful live presence, Precious Stone made a name for themselves early on. In the 1990s, the band recorded their album **“Feel It Tonight,”** which soon became a real insider tip among fans.

By the 1990s, personal and musical developments led the members to pursue individual paths. Vocalist **Frank Michael**, guitarist **Peter Greier**, bassist **Robert Zimmermann**, and drummer **Gerhard Egger** - today **Clemens Coreth** - continued their careers successfully in various professional projects, including **G-Headz**, **Drei-Rad**, **Marc Hess Company**, **Combo Delago**, and others.

In 2023, the musicians reunited, carried by their desire to write original music and perform together again. Their focus is on crafting authentic songs - musically handcrafted rather than generic, built collectively rather than dictated. While rooted in the rock genre, Precious Stone places special emphasis on unique arrangements, musical depth, and expressive performance.

2025, the band began to work intensively on their new studio album, which was released in **February 2026: “Rock On.”** Featuring ten original, authentic tracks, the album reflects the collective experience and unmistakable sound of Precious Stone - raw, honest, and full of character. “Rock On” was recorded and mixed at **“Rec. It” Studio** in Telfs by **Thommy Tschugnall** and mastered by **Sascha “Busy” Bühren** at TrueBusyness/Berlin.

Driven by the creative centripetal force of working together once again, Precious Stone has emerged as a band with substance, quality, and identity – a band that will undoubtedly continue to leave its traces in the music scene.
